

Walk-in closets

Project

Project is a system that keeps the functionality, practicality and simplicity of the rack structure plus the addition of backrests. An elegant and very practical solution, particularly in historical homes when there are walls with aesthetic imperfections or misaligned lines.

WALK-IN CABINET: ACCESSORIES

The Project rack walk-in closet with back panels is full of accessories. You can choose from clothes hanger tubes, shelves, drawer units, rasters and shoe racks, tie racks, trouser racks, pull-out trays, lighting kits, wooden hangers and fabric-covered boxes. In the pictures, rasters stand on the shelves, accompanying drawers and trouser racks. Each element is in textured, in a refined heat-treated oak finish.

BOISERIE PANELS: SEVERAL DIMENSIONS

The Project walk-in closet with back panel furnishes the cloakroom in a complete and practical way and adds elegance in just a few touches. The boiserie panels that serve as back panels for the walk-in closet are available in various sizes. You can choose from four heights and four widths to enrich and organise every conceivable wardrobe area in the home, from the widest to the ingeniously crafted corners to accommodate guests.
