L'AZIENDA *our company*

Old Line è un'azienda che affonda le sue radici nella tradizione ebanistica veneta. Nata 40 anni fa da artigiani accomunati dall'amore per la lavorazione del legno, oggi è un'industria strutturata e punto di riferimento nel mondo della cucina tradizionale. Con alle spalle un importante bagaglio di esperienza nel settore, oggi la seconda generazione continua ad immettere sul mercato prodotti dal design classico, contestualizzati in una modernità compositiva per l'arredo di spazi esclusivi. L'utilizzo di materiali pregiati, la cura dei dettagli e di soluzioni tecniche innovative, sono la chiave per la realizzazione di cucine accoglienti, ospitali, funzionali e di raffinata eleganza.

Old Line's roots are deeply embedded in the cabinet-making tradition of the Veneto region in Italy. Established 40 years ago by artisans who shared a love for timber, ours is now a well-organised company that others in the world of traditional kitchens look up to. Thanks to a heritage of great experience in the sector, the second generation at the helm of the company is still making classic furniture for the market, now contextualised in modern layouts to furnish exclusive spaces. Prized materials, care to detail and innovative technical solutions are the keys to building inviting, cosy, functional and exquisitely elegant kitchens.

LA NOSTRA FILOSOFIA

our philosophy

Recupero e valorizzazione della tradizione.

Questi sono i cardini attorno ai quali ruota la nostra filosofia aziendale. Old Line, infatti, proprio perché nata come piccola realtà artigianale, non ha mai scordato le proprie origini. A quest'ultime continua infatti ad attingere, in un continuo processo innovativo dove la tradizione si sposa con le più moderne tecniche produttive.

Attraverso la valorizzazione del know-how tramandato di padre in figlio, l'azienda è oggi espressione di un'imprenditorialità sostenuta da una genuina passione per il legno e per il design.

To bring back and enhance tradition.

This is the cornerstone of our company philosophy.

In fact, since we started as a small, woodworking business, we have never forgotten our origins and we keep drawing from them, in an ongoing process of innovation in which tradition is paired with the most modern production technologies. By making the most of the know-how handed down from father to son, today our company's business skills are backed up by an authentic passion for wood and design.

100% MADE IN ITALY

100% made in italy

Per Old Line il Made in Italy è un'imprescindibile caratteristica dei propri prodotti. Ogni componente viene infatti lavorato all'interno dell'azienda, dal più semplice al più complesso.

Solo così è possibile garantire l'intera filiera produttiva, con un costante e capillare controllo della qualità dei materiali e delle finiture, per ottenere mobili di eccellenza caratterizzati da un inconfondibile stile italiano.

The furniture produced by us at Old Line is entirely Made in Italy: an intrinsic and indispensable feature of all our products. Each part, no matter how simple or complex, is made on our premises. We know no other way to guarantee the entire production chain, by means of thorough, ongoing quality controls carried out on materials and finishes to obtain top-quality furniture marked by the unmistakable Italian style.

L'ARTIGIANALITÀ

craftsmanship

Artigianalità, ovvero saper costruire con amore, come un tempo. Per Old Line questo aspetto fa parte del dna aziendale perché le nostre origini sono proprio quelle di artigiani del legno.

Scegliamo con cura i materiali, selezionandoli e testandoli, consapevoli che la bontà della materia prima è fondamentale per l'ottenimento di prodotti di alta qualità. Nelle lavorazioni impieghiamo tutta la nostra competenza, curando ogni dettaglio, forti di una consolidata esperienza ebanistica.

Craftsmanship means knowing how to make things with love and care, just like they used to be in the past. Since we started out as cabinet makers, this is still an intrinsic part of our makeup. We choose our materials carefully, selecting them and testing them, well aware that excellent raw materials are essential to make a top-quality product. We invest all our skills in crafting our furniture, taking care of every detail, backed up by our sound experience as cabinet makers.

LA SOSTENIBILITÀ

sustainability

La salvaguardia dell'ambiente è da sempre un aspetto basilare per Old Line.

I nostri processi produttivi vengono continuamente ottimizzati, controllati ed aggiornati.

L'utilizzo di energia elettrica autoprodotta copre fino al 50% del fabbisogno energetico, prezioso contributo ad un processo virtuoso di effettiva eco-sostenibilità.

For us at Old Line, environmental awareness is essential. Our production processes are continuously optimised, checked and updated. Up to 50% of our electricity requirements are self-produced: an important contribution to a virtuous process of authentic eco-sustainability.

Il sistema di apertura di queste colonne è concepito in maniera che l'anta, una volta aperta, ripiegandosi su se stessa, si reinserisca scorrendo nel corpo laterale dell'elemento colonna, mostrandone tutto il contenuto: elettrodomestici, cassetti e cassettoni.

The opening system of these tall units is conceived in such a way that the door opens by folding against itself and then sliding into a pocket in the side of the unit. When open the tall unit reveals all its content: appliances, drawers and deep drawers.

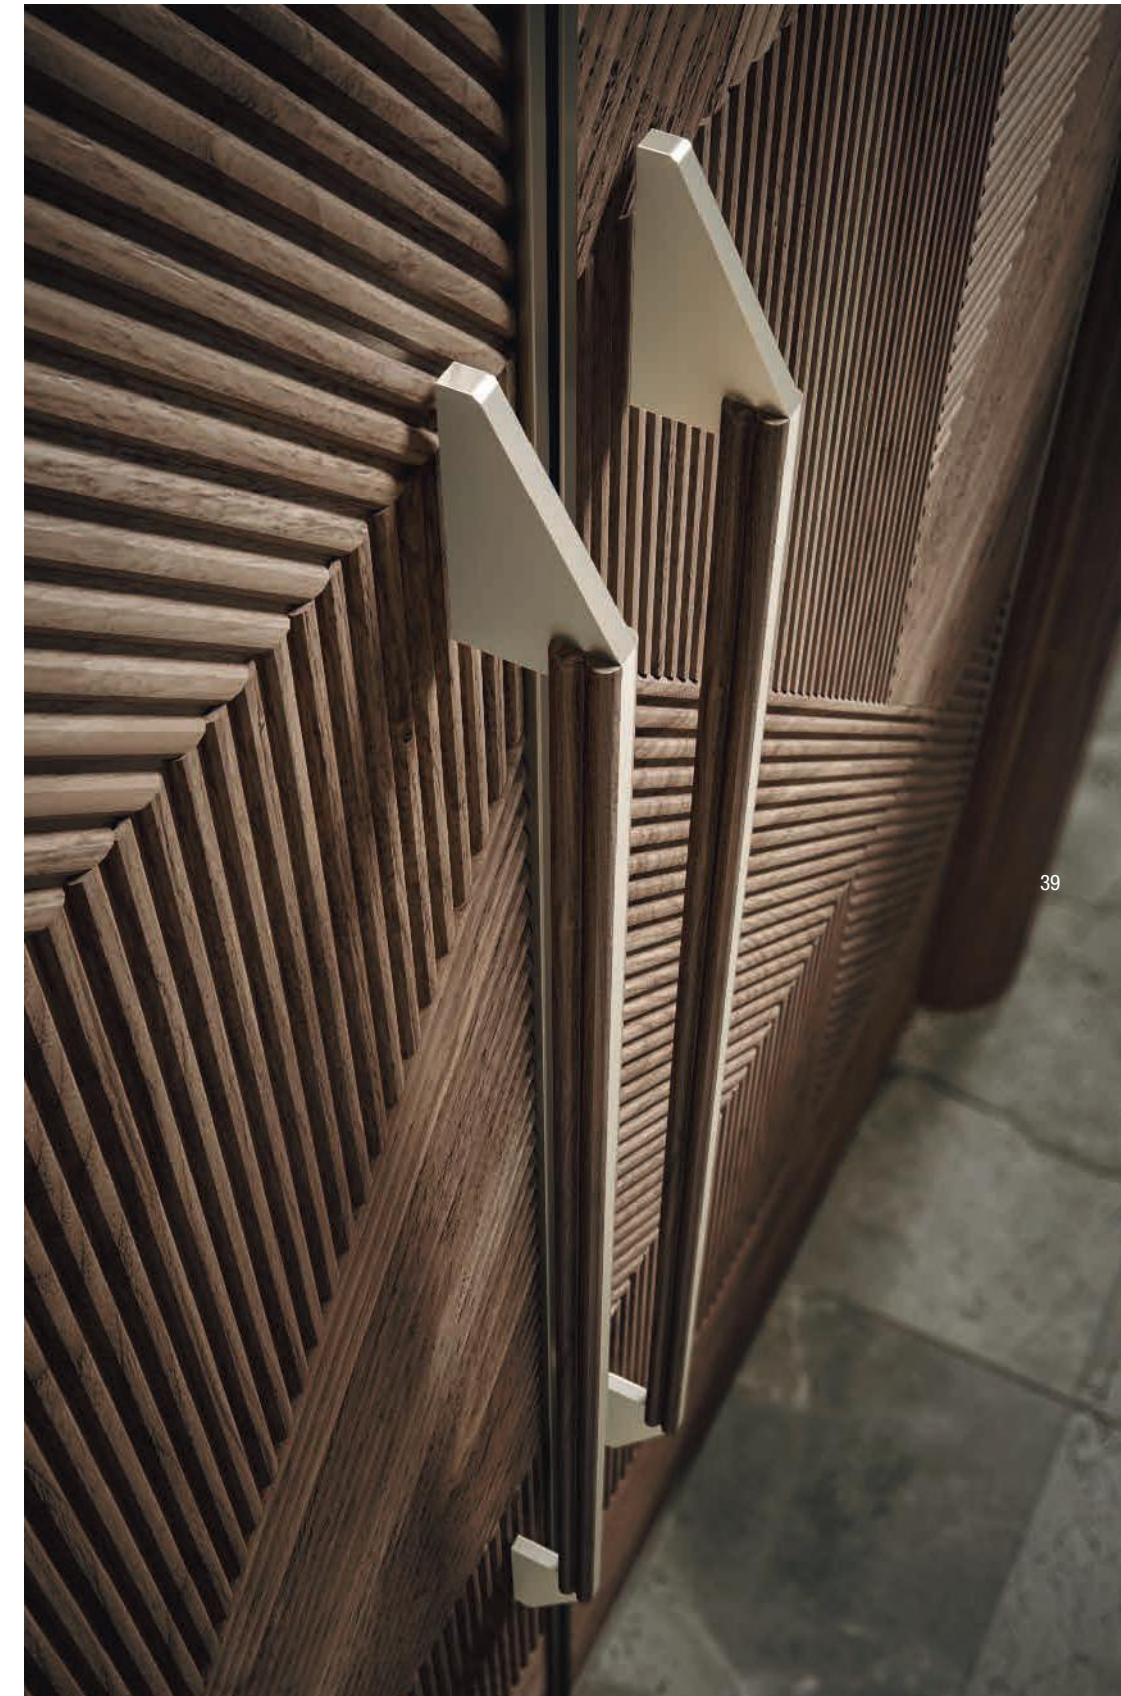

Per le colonne attrezzate di Old Line non esistono rinunce in termine di funzionalità, possibilità di combinazione degli elementi e tecnologia degli equipaggiamenti interni.

Old Line accessorised tall units offer the best in terms of functionality, freedom to combine the various elements and technology of the interior equipment.

L'ampio tavolo circolare in Noce Canaletto
interseca l'isola spezzandone la linearità.

The large, round table in Black walnut
intersects the island, interrupting its
linearity.

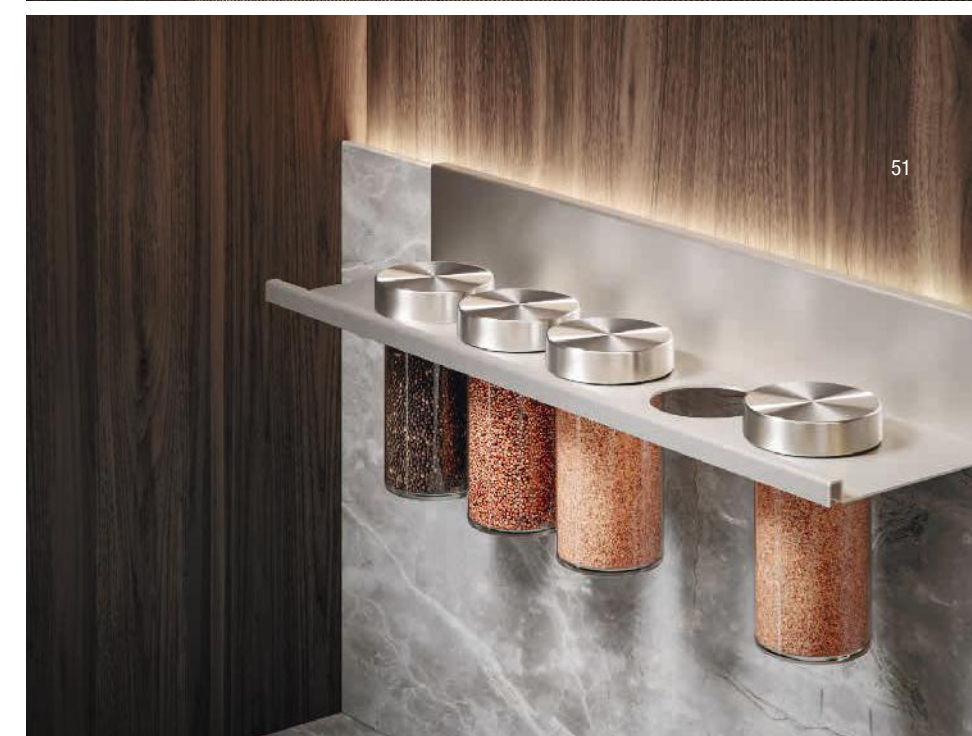

Nelle basi cassetti e cassettoni, compresi quelli interni in frassino naturale, sono assemblati artigianalmente con incastro a coda di rondine, mentre la loro suddivisione interna è affidata a vaschette con scomparti dedicati.

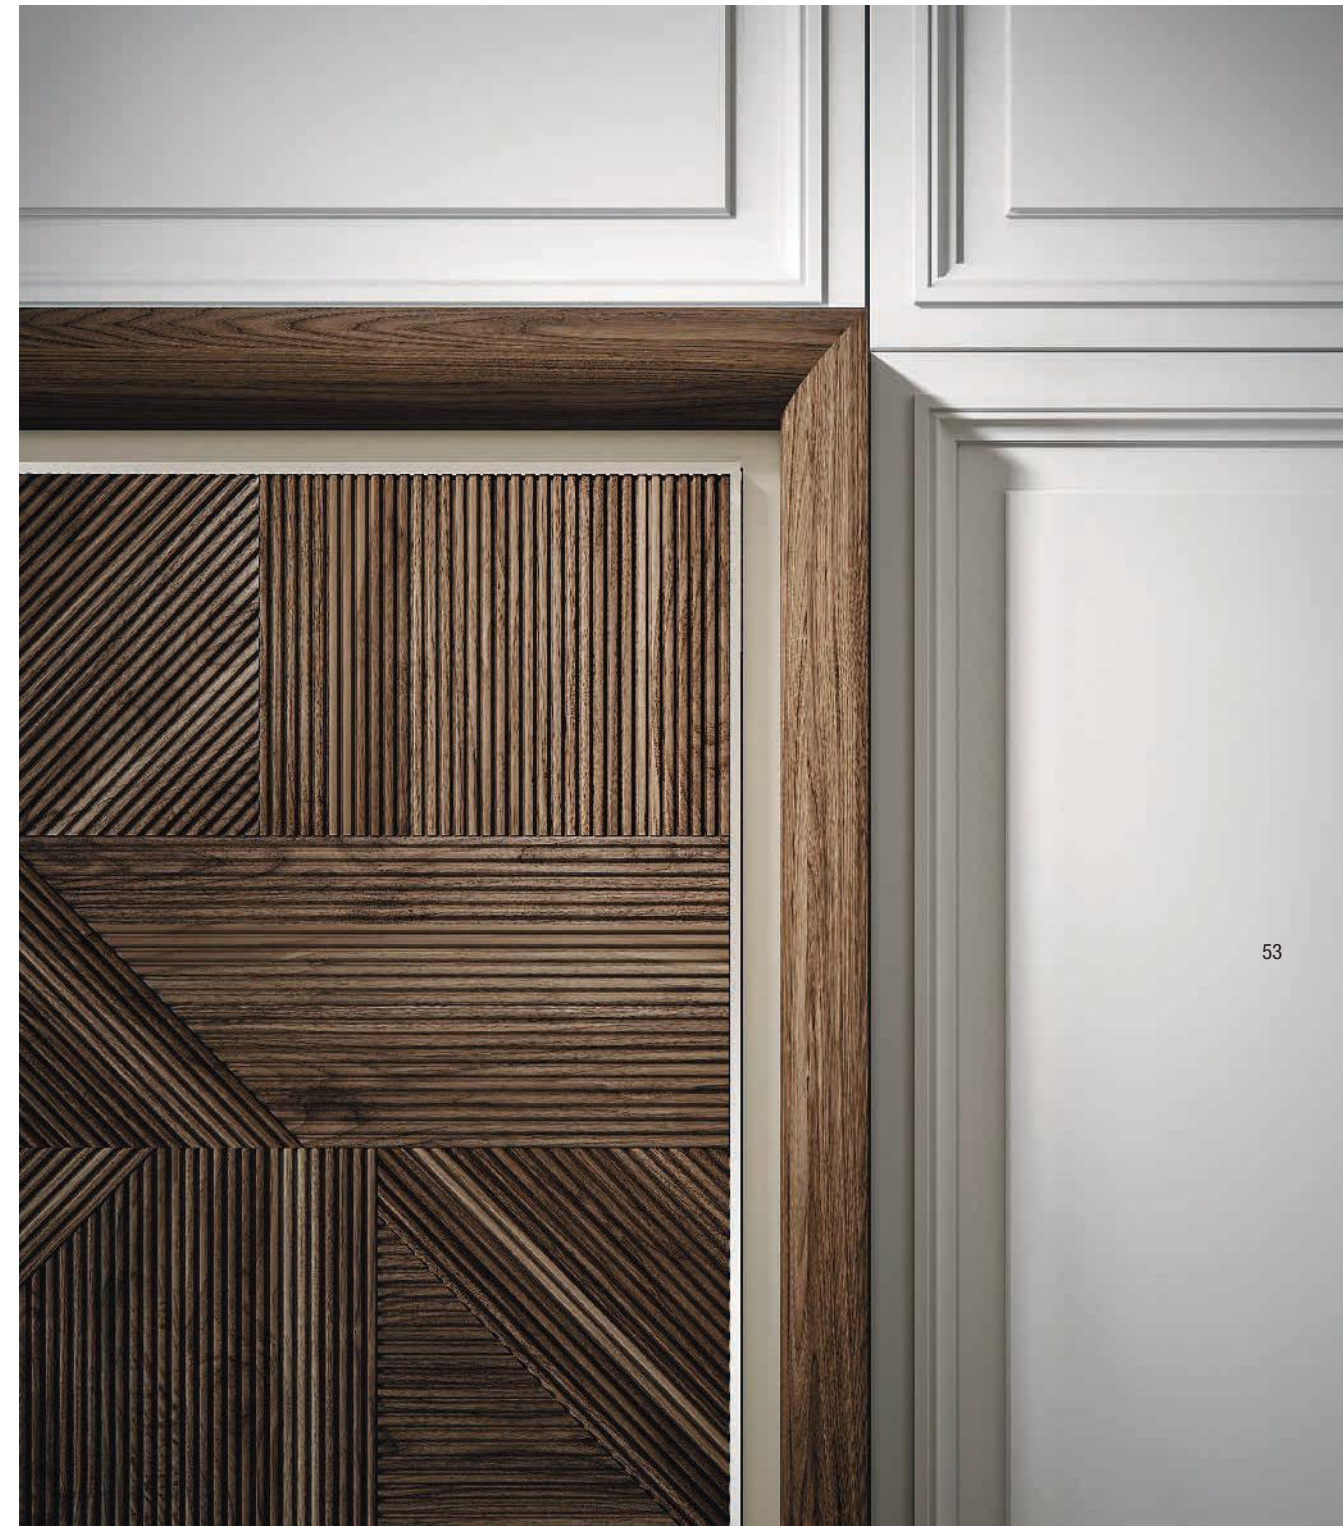

Per le colonne i cassetti interni sono realizzati su richiesta in finitura rovere con incastro a coda di rondine a contrasto.

Base unit drawers and deep drawers, including the inside ones in natural ash, are assembled in the traditional way using dovetail joints while the insides are divided using trays with different compartments.

For tall units, interior drawers are made on request with an oak finish and contrasting dovetail joints.

L'assoluta realizzazione artigianale dei vari componenti di questa cucina le conferiscono lustro e prestigio, ulteriormente esaltati dall'impiego di "sottolineature" metalliche di mensole, gole e telai in finitura Champagne.

The traditional craftsmanship behind all the various parts of this kitchen give it lustre and prestige which is further highlighted by the metallic sheen of the Champagne finish shelves, recessed handles and frames.

Una cucina dalla bellezza e raffinatezza senza tempo grazie all'effetto canneté dei frontali che si alternano ad ante dalla superficie liscia.

Timeless beauty and refinement describe this kitchen with its ribbed-effect Cannelé fronts paired with plain-surface doors.

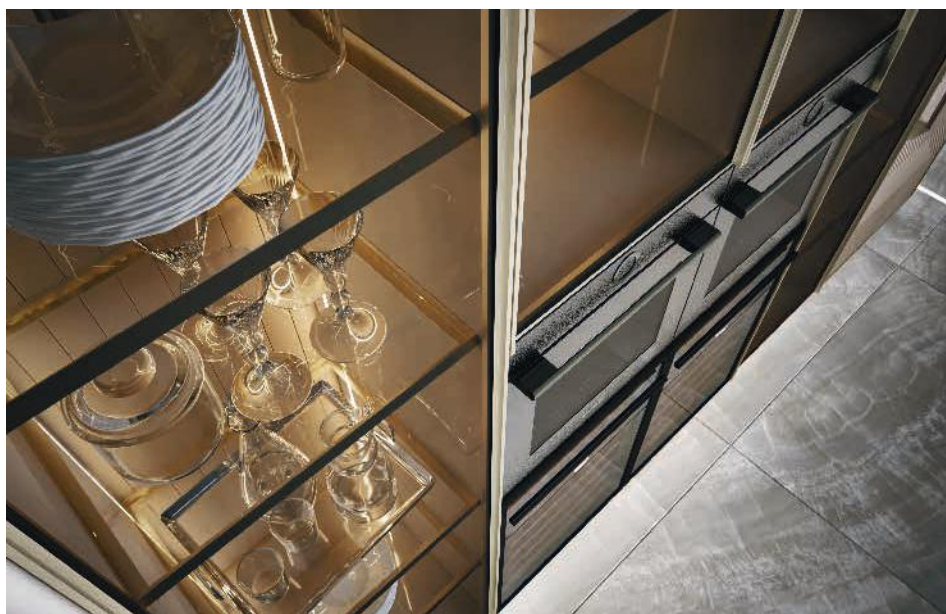

Il piano di lavoro di isola e zona cottura è realizzato in finitura Emperador Dark.

The island and hob worktop has an Emperador Dark finish.
