The spherical ROTOBALL 40, 240V pendant features a lamp shade made of temperature resistant plastic, optically complimented by a silver grey, steel mounting bracket. The voluminous lamp shade, coupled with a standard E27 holder for energy-saving lamps, provides even illumination characteristics. The package includes an appropriate ceiling plate. The ROTOBALL 40 pendant is thus ready for direct connection to the 230V mains supply. This luminaire is suitable for lamps of energy classes: A - A+
