

GREGOR — VINCENT VAN DUYSSEN 2019

1—
9

A modular system of seatings that includes various straight, corner or peninsular units that can be mixed and matched together to give multiple combinations for a living space destined for conversation, reading and entertainment, with all the media devices readily available. The steel base, in a new zinc finish, supported by small feet that recall VVD's most recent furniture designs, such as the Quinten sideboards or the Jan small tables, is covered in leather, as are the winged armrests suitable for supporting soft cushions while at the same time acting as a useful surface. The backrest takes up the Belgian designer's classic approach to sofas: large with raised stitching, but featuring an innovative solution for the corner, which in this design is rounded so as to give continuity to the form. As an alternative to the winged armrest, there is a trapezoidal, padded, slightly flared version, that offers a more comfortable sit.
