

IRVING —
VINCENT VAN DUYSSEN 2019

1—
4

A precise, striking design for Irving, a small system for the living and dining area, composed of tall and low storage units. The shaped metal foot, which distinguishes some of VVD's successful designs, is used here as a visible structural element to define the architecture of the storage units; moving up to the top, it frames the open compartments, closed by doors or with Eco Skin-covered drawers. The thick marble or wood top completes this small domestic architecture.

FINISHES

FEET

zinc paint
pewter colour paint

TOP AND CABINET (STRUCTURE AND DOORS)

eucalyptus
walnut

MARBLE TOP

orient grey (advisable for pairings with eucalyptus)
calacatta gold (advisable for pairings with walnut)
