CARPET COLLECTION

PALETTE - EDGE

Warning

PALETTE EDGE

- 1 Natural fibres will be damaged by direct sunlight and humid places.
- 2 Periodically turn the carpet to avoid localised wear in areas of habitual traffic and/or points subjected to pressure.
- 3 During the first months, a certain amount of pilling is normal. It will begin to diminish after a few weeks of use and does not influence the resistance, look and quality in any way.
- 4 These carpets are hand made and therefore, small variations in shape and size can occur (up to about 3%).
- 5 Small variations in colour could occur from one dye lot to another (because wool, botanical silk and linen are natural materials and each thread reacts differently to colour absorption).

Advice for maintenance and cleaning

PALETTE EDGE

- 1 Vacuum the carpet to clean it, and also to reduce pilling and improve the quality of the carpet.
- 2 Regular cleaning is essential to maintain the original look of the carpet. Use a good vacuum cleaner, at least 2000W, and run it in the direction of the pile.

Stain removal

PALETTE EDGE

- 1 Dry clean only! Do not clean with water.
- 2 For deeper cleaning, contact a company specialised in carpet cleaning.
