Dandelion Suspended

RICHARD HUTTEN

True to its name, Dandelion was initially inspired by the plant that creates the famous and poetic 'dandelion snow' of fuzzy, cotton-like seeds when a gush of wind blows on it. The lamp transmits an explosive feeling of energy in motion, reaching towards us from its centre. Striking and pure self-generated energy to lighten up and blow away the heaviness of everyday life. Dandelion is truly a breath of fresh air.

Detailing

Due to the open structure of the rings, the Dandelion appears airy, as if it is ready to float with the wind at any given moment.

Dimmer

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs.

DIMMER TYPE

Mains dimmable with compatible light source

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
