

**HONEY —**  
ARIK LEVY 2009

1—  
4

A simple but elegant bed characterized by its upholstery in fabric or leather, its materials and its tailoring, typical of the most refined “couturiers”. Honey is a fabric bed with a modern line, a bed of limited size, designed to fit into various sleeping environments. The container below the mattress opens with a swing mechanism developed to ease access to the compartment. The front opens to allow access to a horizontal lift for comfortable bed making.

## FINISHES

### COVERS

fabric - leather, completely removable.

Only the fabric category ANDROMEDA can be used for the turn-up edging.

### FEET FINISHES

black lacquered metal (fixed bed version)

chrome steel (container bed version)

Available in fire-resistant version (TB117 and BS5852).

## TECHNICAL INFORMATION
