

BONALDO

Otto

The Otto chair, designed by Fabrice Berrux, takes its name from its shape: a folded eight that makes the structure curved and fluid. Chameleonic and with contemporary design, it is available with upholstery in different variants of fabric, leather and eco-leather. The lines of the seat and backrest are rounded, elegant, highlighted by the thick metal frame that traces the profile and follows the same finish of the legs. It is precisely this

element, made in painted metal or in the refined matt brass or matt copper finishes, that gives a unique character to this chair. Captivating from the very first glance, Otto is a piece of furniture with refined lines and with the unmistakable and timeless Bonaldo style; a chair with a decidedly strong and recognisable character.
