

BONALDO

Art wood

Designer: Gino Carollo

Art wood is the expression of a clear and rational design intuition, like the geometric shape which inspired its designer, Gino Carollo. The solid wood base, made up of a trapezium that runs diagonally under the table top, allowing minimum obstruction and optimising the space and giving to the structure dynamism, solidity and a strong sculptural impact. The final effect

is of great lightness, thanks to the top proposed in glass or ceramic. The result is an extremely elegant and versatile table, suitable for both the dining room and the study. Art wood is a fixed table available with top in different sizes and two shapes: round or rectangular with rounded corners.

Top

Glass

Cristallo
Trasparente

Ceramic

Ceramica opaca
