

BONALDO

Panorama coffee table

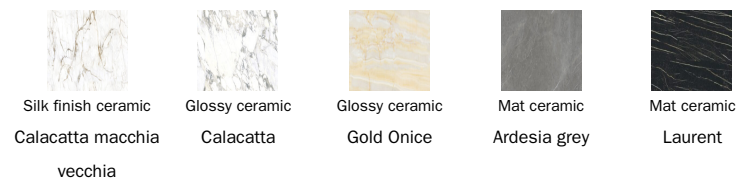

The Panorama collection of coffee tables and padded products is based on a specific item which can be considered to be the real unit of measurement of the system: the hexagonal shape that combines with other elements to achieve the most diverse configurations. "I hope that Panorama will create connections: it was designed specifically to create collective spaces,"

explains the designer Fabrice Berrux. Available in four sizes, to create ever new configurations, the Panorama coffee tables are geometric elements, with painted metal frames embellished with a ceramic top. Personalisation and creativity reach their utmost expression in this collection, and the results that can be achieved are absolutely unprecedented.
