Ripple - Ring Ø900 - APP Compatible

BIG - Bjarke Ingels Group

LUMINAIRE

- Delivered lumens output: 3387Im
- CCT: **3000K**
- Efficiency: **51%**
- Efficacy: 67.74lm/W
- CRI: 90

Notes

Max 6 elements with 1 power supply.

DESCRIPTION

This suspension system shapes the qualities of space through molecular growth, combining light and sound absorption. Comprised of circular structures in three different diameters, it works through layers of performance that can be modulated as required.

The structures can be simple electrical connection elements, unveil "pure" light or be enriched by a diffuser which, in addition to interacting with the light, offers sound absorption properties.

The basic element of the product is a circular ring whose profile is a synthesis of optics and mechanical engineering. The structures are made of an innovative heat-conducting moulded plastic which dissipates heat, allowing high-power LEDs to be used.

Ripple elements can also be combined in increasingly complex customised solutions: from simple lines or geometries of elements with a constant diameter, to compositions that combine different diameters in a more organic and free growth, through to show-stopping, striking solutions.

In addition, the possibility of using the rings as only a connection structure allows spatial distribution of the active elements without creating any waste or excess, focusing light only where it is needed.

Once again, Artemide's project with BIG is guided by a strong idea of interaction with spaces, an open, modular and scalable solution that combines technological innovation with compositional intelligence, translating all this into something apparently simple but striking and full of potential. This freedom of configuration is then mirrored by the flexibility in management granted by interaction with Artemide App.

PRODUCT CODE: 2062010APP

FEATURES

- Article Code: 2062010APP
- Colour: Aluminium
- Installation: Suspension
- Material: Heat-conducting moulded plastic Series: Design Collection, 2020 Artemide
- Collection
- Environment: Indoor
- design by: BIG Bjarke Ingels Group

DIMENSIONS

- Height: cm 3
- Diameter: cm 90
- Base Diameter: cm 20.5
- Max Height from ceiling: cm 165

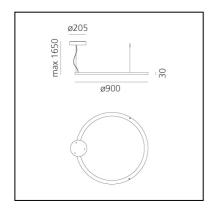

⁻ Watt: 50W
